

Ohio's Evaluation & Assessment Center for Mathematics and Science Education

Ohio's Evaluation & Assessment Center for Mathematics and Science Education specializes in the evaluation and assessment of projects and programs focused on STEM and STEM education. Program level services assess or evaluate quality and productivity, while project level services use appropriate measures and instruments to assess effectiveness, including changes in student learning. The E & A Center provides assistance with proposal preparation, research design, and evaluation planning and execution. Although housed at Miami University, the E & A Center is independently supported by more than 25 external grants and contracts. The Center maintains state-of-the-art computing and communications equipment and superior facilities. The E & A Center's successful evaluation of multiple large-scale projects is fostered by the close collaboration of the E & A Center team with project personnel.

To request services, please contact:

- Sarah B. Woodruff, Director
Phone: 513-529-1686; Email: woodrusb@muohio.edu
- Emily E. Ryan, Center Coordinator
Phone: 513-529-0232; Email: ryanee2@muohio.edu

Please provide the following information:

- A copy of the Funding Agency Solicitation or Request for Proposal (RFP).
- Project summary or abstract, including project goals and major activities.
- Budget information, including total projected project budget and the percentage to be allocated for evaluation services.
- Proposal due date, funding agency, and program.
- Principal Investigator and/or Project Director contact information, including name, phone number, and e-mail address.

Guidelines/Terms for request for services:

- Please request services at least two weeks prior to final proposal due date.
- An E & A Center staff member will contact you within 48 hours of your request.

*Thank you for Considering Ohio's Evaluation & Assessment Center
for your evaluation and assessment needs.*
